EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. H. Milton on June 27, 2005.

The application has been amended as follows:

In the CLAIMS:

Claim 1, line 3, after "having", the phrase —a first coefficient of thermal expansion and—has been inserted.

Claim 1, line 4, before "mold", the word —first—has been inserted.

Claim 1, line 5, before "mold", the word —first—has been inserted.

Claim 1, line 9, before the word "over", the phrase -- ,having a second coefficient of thermal expansion different from the insert, —has been inserted.

Claim 1, line 10, before the word "completely", the word "to" (second occurrence) has been deleted and the words —of the insert and—have been inserted.

The following is an examiner's statement of reasons for allowance: it is deemed novel and unobvious over the prior art of record to so perform a method of making a part comprising the steps of placing an insert having a first coefficient of thermal expansion and sides and an open top and a bottom surface into a first mold cavity,

Art Unit: 1732

injecting an insulating composition into the first mold cavity to bond to the bottom surface and the sides of the insert; to form a layer of an expanded compressible polymer with the insert layer having sides and a bottom to expose the open top, and injecting a part composition, having a second coefficient of thermal expansion different from the insert, over the bottom and the sides of the insulating layer to expose the open top of the insert and isolate the insert from the part whereby the insulating layer adapts to differences in thermal expansion between the insert and the part, as claimed in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
